

Travel Grants List for ISCP2023

Congratulations on being nominated as a Travel Grants Recipients!

[Notice]

1. The recipients **must visit** the information desk **on the 5th floor on the last day(25th Nov.)** of the conference to fill out the documents. also submit copy of the passport, conference name badge for proof of attendance at the conference.

2. Information Desk Operating Hours (for Travel Grants only): 25th Nov. 14:00 to 17:00

2	Country	Name	Affiliation	Topic Category	Title
ISCP2023-A-000040	Malaysia	Zulhabri Othman	Management and Science University	1. Ischemic heart disease/ coronary artery disease	Identification of Inflammatory Biomarkers in Premature Atherosclerosis Through Protein-Protein Interaction Network Analysis
ISCP2023-A-000152	India	Pardeep Kumar	Shri Maha Maya Vaishnav Devi Research Institute	1. Ischemic heart disease/ coronary artery disease	Impacts of gastric bypass versus gastric restrictive surgery in obese patients with coronary heart disease
ISCP2023-A-000182	Kazakhstan	Anuar Zhunussov	National Scientific Medical Centre	1. Ischemic heart disease/ coronary artery disease	CLINICAL CASE OF A PATIENT WITH POLYCYTHEMIA VERA COMPLICATED BY SEVERE HEART FAILURE
ISCP2023-A-000089	Thailand	Supharat Wattanasombat	Chiangrai Prachanukroh Hospital Thailand	2. Anti-platelets and anticoagulation	Development of a Surveillance System for NOACs-related Adverse Event Monitoring
ISCP2023-A-000109	Thailand	Thanaporn Khumsawang	Faculty of Medicine Siriraj Hospital, Mahidol University	2. Anti-platelets and anticoagulation	Telepharmacy in Telehealth Services Project by Telephone: Cardiovascular and Thoracic (CVT) Mobile Clinic at Tertiary-Care Hospital, Thailand.
ISCP2023-A-000193	Thailand	Pattamawan Kosuma	Naresuan University	2. Anti-platelets and anticoagulation	The prediction model for the initial dose warfarin in patients undergoing Heart Valve Surgery.
ISCP2023-A-000105	Thailand	Dhorn Amnuayphonwiwat	Faculty of Medicine Siriraj Hospital Mahidol University	3. Heart failure with reduced ejection fraction and preserved ejection fraction	Impact of pharmacist and multidisciplinary team to optimizing guideline-directed medical therapy for patient with heart failure with reduced ejection fraction in heart failure clinic setting :Thailand
ISCP2023-A-000145	Thailand	watsit chaipatiwat	chulalongkorn university	3. Heart failure with reduced ejection fraction and preserved ejection fraction	TIME IN THERAPEUTIC RANGE OF CYCLOSPORINE AND ACUTE CELLULAR REJECTION DURING THE FIRST YEAR AFTER HEART TRANSPLANTATION
ISCP2023-A-000180	Japan	Nene Takahashi	Department of Molecular Pathophysiology, Faculty of Pharmaceutical Sciences, University of Shizuoka	3. Heart failure with reduced ejection fraction and preserved ejection fraction	Compound X, an Extract of the Natural Compound Sansho, Prevents Pressure Overload-induced Systolic Dysfunction in Mice
ISCP2023-A-000133	Spain	PAOLA ROJAS	Parc Tauli University Hospital	4. Cardiomyopathies	MIHCAT: REGISTRY OF HYPERTROPHIC CARDIOMYOPATHY IN CATALUÑA: GLOBAL RESULTS
ISCP2023-A-000165	Indonesia	I Gede Aswin Parisya Sasmana	Udayana University	4. Cardiomyopathies	Safety and Efficacy of Standard Iron Chelators Conjugated with Calcium Channel Blocker in Patient with Chronic Blood Transfusion-Induced Cardiac Iron Overload: A Meta-Analysis
ISCP2023-A-000117	Mongolia	Nomindari Jargalsaikhan	Third State Central Hospital	5. Cardio-renal syndromes	Interaction between renal and right ventricular function and their early prognostic relevance in patients with cardiogenic shock complicating AMI
ISCP2023-A-000219	Indonesia	Digita Natarina Yudharaputri	Hasan Sadikin General Hospital West Java Indonesia	5. Cardio-renal syndromes	Change in Estimated GFR Associates with Coronary Plaque Atherosclerosis on Coronary Computed Tomography Angiography
ISCP2023-A-000055	Malaysia	Omilla Ragavan	Faculty of Medicine and Health Sciences, Universiti Putra Malaysia	6. Preventive Cardiology	Deciphering the potential mechanisms of <i>Alternanthera sessilis</i> red against Atherosclerosis using Network Pharmacology and Molecular Docking approach
ISCP2023-A-000116	Japan	Maki Komiya	Clinical Research Institute, National Hospital Organization Kyoto Medical Center	6. Preventive Cardiology	Effects of Smoking Cessation on the Levels of Immunoglobulin Free Light Chain—A Novel Biomarker of Inflammation—
ISCP2023-A-000202	Japan	Masafumi Funamoto	Division of Translational Research, Clinical Research Institute, National Hospital Organization Kyoto Medical Center	6. Preventive Cardiology	Effects of curcumin for the prevention of hypertensive heart disease
ISCP2023-A-000183	Indonesia	Rosinta Hotmaida Pebrianti Purba	Universitas Gadjah Mada	9. Pulmonary hypertension	Depression Level Among Elderly with Hypertension Disease and Kidney Function Decrease
ISCP2023-A-000121	Japan	TERUHIKO IMAMURA	University of Toyama	10. Geriatric pharmacology	Clinical Implication of Polypharmacy following TAVR
ISCP2023-A-000176	India	Ranbir Singh	Shri Maha Maya Vaishnav Devi Mandir Research Institute	10. Geriatric pharmacology	Role and relationship between vitamin D and arterial stiffness in non-dialysis-dependent chronic kidney disease in old aged patients

ISCP2023-A-000190	Indonesia	Hepri Ardianson Purba	Alumnus of University of Lampung	10. Geriatric pharmacology	How the Caregiver Status Could Increase the Quality of Life Among Hypertensive Elderly with Dementia Status?
ISCP2023-A-000062	Malaysia	Yoke Keong Yong	Department of Human Anatomy, Faculty of Medicine and Health Sciences, Universiti Putra Malaysia, 43400 Serdang, Selangor, Malaysia	12. Basic science and genetics	Omentin Suppresses Oxidative Stress-induced Endothelial Hyperpermeability Through Inhibition of F-Actin Reorganization
ISCP2023-A-000019	India	Qulsoom Naz	King Georges Medical University	14. Diabetes & Obesity	Eating as well as sleeping late is Associated with Obesity, Inflammatory Markers and Circadian Disturbances in young diabetic adults
ISCP2023-A-000214	Sweden	Rifaldy Fajar	Karlstad University	14. Diabetes & Obesity	Comprehensive Obesity Risk Assessment through Deep Learning Analysis of Multi-Modal Wearable Sensor Data: An Innovative Approach for Predictive Modeling and Intervention Strategies
ISCP2023-A-000220	Indonesia	Riska Dwi Astuti	Universitas Islam Indonesia	14. Diabetes & Obesity	Obese Adolescents and Seventeen Years Later
ISCP2023-A-000181	India	Rohit Rajput	Shakuntla Hospital And Research Center	14. Diabetes & Obesity	Effects of calorie restriction diet on blood glucose regulator treatment for patients with post-gastric bypass
ISCP2023-A-000173	India	Sumit Rajput	B V Deemed University	15. Hyperlipidemia and CVD	Protective Role of Linum Usitatissimum Seed Extract on Oxidative Stress And Heart Function in Type 2 Diabetic Patients
ISCP2023-A-000195	Indonesia	Rizki Rachmad Saputra	Universitas Palangka Raya	15. Hyperlipidemia and CVD	Bajakah's Healing Code: Unveiling the Power of 6-Methoxyeriodictyol, Taxifolin, and Cajanin as Potential HMG-CoA Reductase Inhibitors. A Computational Odyssey from Traditional Wisdom to Scientific Validation
ISCP2023-A-000123	India	Dr Likhan Chandra Doley	Anthropological Survey of India	16. Epidemiology	Urban-rural habitat and socio-demographic predictors of hypertension among the Ao Nagas of Nagaland, India
ISCP2023-A-000171	Philippines	Vivien Louise R. Haduca	University of the East Ramon Magsaysay Memorial Medical Center College of Medicine	16. Epidemiology	Correlation Between Patient-Doctor Relationship and Medication Adherence of Hypertensive Filipinos
ISCP2023-A-000187	Indonesia	Lintong Hottua Simbolon	Alumnus of University of Lampung	16. Epidemiology	Women Bargaining Power and Hypertension Prevalence in Children and Adolescents
